

Compilers

Phase 5

Expressions

Due – October 26

50 Points

Implement declarations as shown in chapter 6 in *Modula-2: Language Description and Compiler*.

The files containing the code shown in chapter 6 can be found on the course home page.

Files to turn in:

- README – describes how to compile and run your compiler.
- All relevant file for the compiler.
- The makefile or project file.

Hints:

- Make sure you test your functions as you go along. Don't try and implement everything and then start testing.
